

High quality finishing and long-lasting protection of indoor and up to 3 years outdoor graphics

Protective Films

euromedia Mono Laminate II gloss

euromedia Mono Laminate II is a cold laminate for the finishing and protection of indoor and outdoor graphics. The nice surface of the high clarity laminate produces a high quality finish and protects prints from damage.

The euromedia Mono Laminate series has a water-based adhesive, is available as matt and gloss version, and is made of a neutral-coloured, monomeric vinyl with a high degree of transparency and a UV filter. For across the board protection!

Dimensions

80mic - 1050mm(41,3') - 50m

80mic - 1372mm(54') - 50m

80mic - 1524mm(60') - 50m

Product Code

70100112984

70100112985

70100113287

Hints & Tips

Our basic recommendation is that you allow the print to dry out for 24 hours before finishing. If you are not able to lay out the complete strip, simply stand the prints on edge very loosely rolled up. Mesh boxes or drinks crates are perfect for placing underneath, as they allow the graphics to 'breathe'.

euromedia Mono Laminate II gloss

Product Properties

Applications

- indoor
- outdoor

Properties

- permanent adhesive

Processing Tips

We basically recommend that the print is left to dry out for 24 hours before finishing.

Storage

The product should be stored in its original packaging at a room temperature of 15°C - 25°C and 40 - 60% relative humidity.

Specifications

Material	PVC, transparent
Thickness	80 mic
Liner	0,062 mm thick; 72 g/m ² weight
Adhesive type	Water-based acrylic
Tensile strength	> 160 %
Temperature resistency	-30 °C to +80 °C
Application temperature	Min. 10 °C
Outdoor durability	Up to 3 years
Shelf life	2 years
