

Textured laminate for short-term applications on indoor floor graphics

Protective Films

euromedia FloorGraphics Laminate FR

euromedia FloorGraphics Laminate FR is a textured protective laminate for demanding indoor applications. The flexible PVC film can be applied with an overlap to print media on smooth surfaces. It allows floor graphics as well as RollUps or PopUpsto be finished easily, even when printed using UV inks.

euromedia FloorGraphics Laminate FR may be used for 3 months indoors and is certified in accordance with DIN 51130 (R9) during this period. R9 stands for an acceptance angle of 9°, which is sufficient for most advertising applications on smooth flat surfaces.

Dimensions

100mic - 1040mm(41') - 50m
100mic - 1300mm(51') - 50m

Product Code

70100098713
70100098738

Hints & Tips

We recommend MonoVinyl removable as a suitable indoor print medium for use in combination with euromedia FloorGraphics Laminate FR. Looking for a material for outdoor advertising on rough surfaces such as roads, car parks and pavements? If so, use euromedia Street Vinyl and euromedia Street Laminate

euromedia FloorGraphics Laminate FR

Product Properties

Applications

- indoor

Properties

- permanent adhesive
- monomeric vinyl
- fire classification B1

Processing Tips

We basically recommend that the print is left to dry out for 24 hours before finishing.

Storage

The product should be stored in its original packaging at a room temperature of 15°C - 25°C and 40 - 60% relative humidity.

Specifications

Material	PVC, transparent
Thickness	100 mic
Liner	Single-sided siliconised paper
Liner/ Backing weight	63 g/m ²
Adhesive type	Polyacrylate, permanent, transparent
Adhesive strength	11/25 N/mm
Temperature resistency	-40°C - +79°C
Application temperature	min. 8°C
Others	Anti-Slip (DIN 51103): R9 Dimensional stability: Running direction < -3 % Cross direction < 1.5 %
